

PROFESSIONAL MARINE SERVICES

CAPABILITY STATEMENT

An ocean of understanding delivering quality outcomes

WHO IS SUBSEA?

Subsea Pty Ltd is a professional marine company with over 10 years' experience offering a wide range of subsea services across Australia.

Working across a variety of sectors such as mining, shipping and construction, Subsea provides environmental, engineering, maintenance and salvage services.

At Subsea, our reputation for excellence is directly related to our team's dedication to quality work and customer satisfaction.

WHY SUBSEA?

Quality

High standard outcomes supported by comprehensive reporting.

Detail

Attention to detail in understanding and delivering projects.

Customisation

Ability to adapt to customer specific requirements.

Speed

Fast response times from enquiry to solution.

Technology

Use of industry leading equipment and adoption of new technology.

Services

A broad range of services providing sector specific solutions.

Accreditations

Certified to high codes of shipping standards including Lloyds and BV.

SERVICES

Commercial diving

ADAS certified commercial dive teams available to support a wide range of diving programs.

Inspection

Class accredited under water inspections in lieu of dry dock (UWI/LD) and general ship inspections (UWI).

Salvage

Search, inspection, and retrieval of vessels and cargo from river or ocean beds.

Debris clearance

Identification and removal of surface or sub-surface obstructions and debris.

Maintenance and repairs

Sub-surface asset dive works including welding and non-destructive testing.

Launch services

Border Force approved crew transfers and provisions supply, including remote locations.

Vessel charter

Crewed commercial charter supporting survey, training, and other applications.

Towing services

Relocation of boats and barges, and fast response towing requirements.

Seabed surveys

Oceanographic and benthic survey support for commercial and research projects.
